Study Visit 2011

“Sustainable Network of Research and Education in Natural Sciences and Technology”

9.-13. October 2011, Austria

EU-Programme
Lifelong Learning
2007-2013

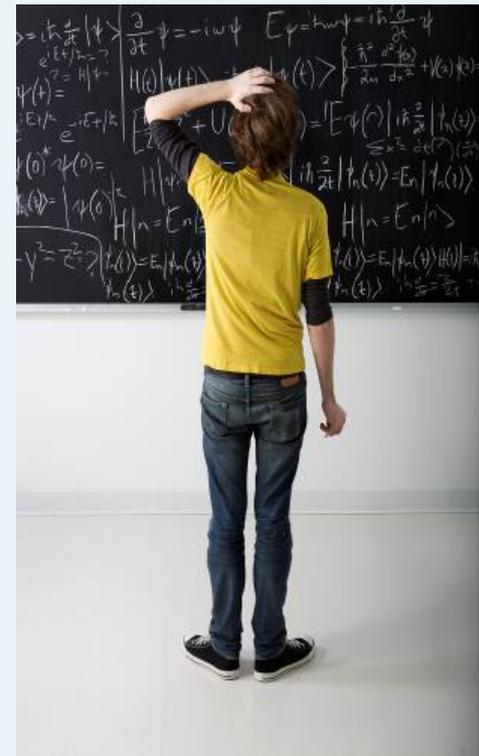

Scope of Duties

2

A larger Europe – EU with new borders

A changing Europe

- Demographic changes
- Flexibilisation at the job markets
- Social changes and
- social integration

Goals of the programme

3

- Development of a high quality education for lifelong learning in Europe
- Improvement of quality, attractiveness and access to higher education
- Promotion of creativity, competitiveness, employment and entrepreneurial spirit
- Support to learn languages
- Dissemination of European contents
- Support of handicapped people and with special needs

Goals in Austria

4

- Simple access to the programme for all people
- Visible increase of mobility for lifelong learning
- Cross boarder mobility should be „a matter of course“ in general education and career training
- Support for the development of the Austrian education system within the programme LLL
- Support of the European targets in the frame of decentralised actions (Europa 2020, Allgemeine und berufliche Bildung 2010, Memorandum lifelong learning EQF, ECTS, ECVET, quality management...)

Target groups

- Teachers
- Pupils
- People in vocational training
- Students
- Graduates
- People at the labour market
- Adults
- Institutions with commitment in general or vocational education (contribution to a successful implementation of programme objectives)

Methods

6

Financial Framework

- 7 Mrd. Euro from 2007-2013 for Europe
- 17 Mio. Euro for Austria 2011

Implementation

- 33 involved countries of Europe
- Focal point quality of contents, less financial administration
- Flat rates and unit costs instead of full price voucher controls
- Long-term funding of several years projects

Programm structure

Study visits for educational and career training professionals

13

Participants

Interested people with multiplier function from the education sector can take part of the cross-boarder study visits.

Organisation of Study visits

Organisations which want to transfer knowlege can apply for the organisation of a study visit

Austria uses the study visits directly to implement EU2020-priorities (e.g. promoting of natural sciences).
